About Me

I am a motivated and passionate 4th-year B.Tech CSE student seeking a Placement opportunity as a software developer. With a strong foundation in programming languages such as CPP and Python, I am very eager to apply my skills to real-world projects. I am a quick learner and have experience of working in a team environment. I am very much committed to deliver high-quality results and I am excited to contribute my knowledge to a dynamic software development team of your esteemed organisation.
